

AVINASH JADHAV

Technical Program Lead / Security Engineering Manager – Critical Infrastructure

Bengaluru, Karnataka, India • +91 9901071166 • ajadhav311989@gmail.com • linkedin.com/in/avinash-jadhav-54a67645

PROFESSIONAL SUMMARY

Strategic, results-driven Senior Program Manager – Security Technology with 14+ years of experience leading physical security architecture, APAC/EMEA regional infrastructure integrations and technology strategy for multinational tech enterprises. Proven track record defining enterprise security technology roadmaps, directing CAPEX/OPEX budgets and executing large-scale integrations across CCTV, Access Control Systems (ACS), Intrusion Detection Systems (IDS) and Regional Security Operations Centers (RSOC). Hands-on expertise managing Lenel OnGuard, Genetec and Milestone deployments, aligning physical security with enterprise IT, cybersecurity and data compliance standards (ISO 27001, PCI DSS). Skilled at vendor governance, system lifecycle management, and leveraging AI/analytics to automate incident management, improve resilience, and scale cross-functional operations.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Security Technology Strategy:** Technology Roadmapping, APAC Regional Strategy, Enterprise Security Architecture, RSOC/Command Center Integration, System Lifecycle Management.
- **Systems Governance & Integration:** CCTV Surveillance, Access Control (ACS), Intrusion Detection (IDS), Perimeter Intrusion (PIDS), Video Management Systems (VMS), Incident Management, Travel Safety & Crisis Coordination.
- **Program & Vendor Management:** CAPEX & OPEX Budgeting, Scope of Work (SOW) Compliance, Vendor Performance & SLA Governance, System Commissioning, Test & Acceptance, Risk Mitigation.
- **Platforms & Technology:** Lenel OnGuard (Certified), Genetec Security Center (Certified), Milestone VMS, AI Video Analytics, ServiceNow, Jira, AutoCAD, Visio.
- **Standards & Compliance:** ISO 27001, PCI DSS, PSP/PPP Framework Alignment, Cybersecurity Compliance, Root Cause Analysis (RCA).

PROFESSIONAL EXPERIENCE

ORACLE | Senior Security System Program Manager – Systems & Infrastructure Bengaluru, India • Aug 2021 – Present

- Define and execute regional security technology roadmaps, aligning APAC/global facilities with enterprise security architecture, physical security standards, and cybersecurity compliance requirements.
- Spearhead end-to-end management of complex physical security infrastructure programs, overseeing CAPEX/OPEX budgeting, project scope, procurement, and multi-vendor service performance.
- Direct system integrations linking physical security assets (ACS, CCTV, IDS) with centralized monitoring, incident management platforms, and Regional Security Operations Center (RSOC) infrastructure to enhance operational visibility.
- Partner with cross-functional stakeholders in Enterprise Technology, Facilities, Corporate Security, HR, and Legal to maintain operational readiness, standardizing SLA/vendor performance metrics across APAC locations.
- Piloted and integrated edge AI video analytics and automation tools into existing monitoring platforms to accelerate threat detection, reduce incident response times, and maximize uptime across critical installations.
- Lead system commissioning, final Test & Acceptance, and post-implementation reviews for enterprise upgrades, conducting Root Cause Analysis (RCA) and remediating system vulnerabilities.

MASTERCARD | Senior Analyst – Corporate Security Infrastructure Pune, India • Dec 2017 – Jul 2021

- Governed physical security infrastructure deployments across multi-site corporate environments, maintaining 100% compliance with ISO 27001 and PCI DSS standards.
- Engineered local edge-controller configurations and centralized logging solutions, ensuring continuous video recording, access logging reliability, and seamless integration with corporate incident response workflows.
- Managed vendor performance, hardware lifecycle maintenance, and preventative service workflows to minimize system downtime across critical infrastructure.
- Key Achievement: Recognized with Corporate 'Innovation Award' and 'Challenge Coin Award' for outstanding performance in enterprise security infrastructure modernization.

EARLIER SECURITY & SYSTEMS ENGINEERING EXPERIENCE

- **Target | Security Consultant (Jun 2017 – Dec 2017):** Conducted physical risk audits, vulnerability evaluations, and security system design for corporate tech campuses and retail distribution networks.
- **Wells Fargo | Technology Specialist (Feb 2015 – May 2017):** Executed multi-site enterprise access control and CCTV system expansions; managed vendor integration and hardware upgrades.
- **Tyco | Project Engineer (Sep 2012 – Jan 2015):** Commissioned large-scale Perimeter Intrusion Detection Systems (PIDS) and integrated multi-layered physical security platforms for corporate clients.
- **Siemens | Project Engineer (Oct 2011 – Sep 2012):** Designed CCTV layouts, access control system architectures, and building automation diagrams using AutoCAD.

EDUCATION & PROFESSIONAL CERTIFICATIONS

- Bachelor of Technology (B.Tech) in Electronics & Communications — S.S.I.T (2011)
- Certified Systems Engineer: Lenel OnGuard & Genetec Security Center
- Oracle Cloud Infrastructure AI Foundations Associate (2025)
- Oracle Data Center Operations Certified Foundations Associate (2026)
- Professional Scrum Master I (PSM I) — Agile Project Management Execution
- Framework Alignment: Aligned with Physical Security Professional (PSP) & PMP methodologies

LANGUAGES & REGIONAL MOBILITY

Languages: English (Fluent/Proficient), Hindi, Telugu, Marathi • Travel Availability: Open to regional and international travel across APAC facilities (10–20%)
