

AVINASH JADHAV

Security Systems Engineer – Data Center Infrastructure

Bengaluru, India (Open to Relocation to Mumbai / Pune) • +91 9901071166 • ajadhav311989@gmail.com • linkedin.com/in/avinash-jadhav-54a67645 • Native Fluency in Marathi, English & Hindi

PROFESSIONAL SUMMARY

Data Center & Critical Infrastructure Engineering SME with 14+ years of experience leading end-to-end technical solutioning, post-sales deployment, fitout integration, and physical infrastructure delivery across hyperscale and enterprise environments. Proven track record collaborating with sales, client success, legal, and engineering teams to translate complex client requirements into scalable MEP-aligned, fiber network, BMS, and physical security solutions. Expert in conducting site walkthroughs, leading technical presentations, authoring technical response packages (RFPs/RFIs), and ensuring contract/lease review compliance.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Data Center Infrastructure & Solutions:** Hyperscale & Enterprise Solutions Design, Post-Sales Engineering, Technical Response Packages (RFPs/RFIs), Client Technical Tours, Quoting & SOW Alignment, Site Handover & Commissioning.
- **MEP, BMS & Physical Systems:** Mechanical, Electrical & Plumbing (MEP) Alignment, Fault-Tolerant Power Redundancy, Liquid Cooling Concepts, Building Management Systems (BMS), Fiber Network Infrastructure, Access Control & VMS/CCTV.
- **Stakeholder & Legal Alignment:** Lease & Contract Review Support, Cross-Functional Team Leadership (Sales, Legal, Ops, SMEs), Vendor & OEM Technical Management, Customer Acceptance (UAT).
- **Standards & Enterprise Platforms:** AutoCAD, Visio, ServiceNow, Jira, Genetec Security Center, Lenel OnGuard, ISO 27001, SOC 2, OCI Data Center Operations Certified.

PROFESSIONAL EXPERIENCE

ORACLE | Senior Program Manager – Data Center Infrastructure & Security Solutions Bengaluru, India • Aug 2021 – Present

- **Post-Sales Technical Solutioning:** Lead end-to-end technical solutioning and delivery for mission-critical enterprise and hyperscale data center facilities, translating client operational needs into technical architectures.
- **Cross-Functional Collaboration:** Partner directly with Sales, Product Management, Legal, and Facilities teams to prepare comprehensive technical response packages, client proposal reviews, and Scope of Work (SOW) compliance documentation.
- **MEP & Infrastructure Integration:** Oversee vendor technical submittals, AutoCAD design layouts, and engineering integration across MEP, BMS, power redundancy, and high-security physical infrastructure.
- **Contract & Lease Technical Support:** Assist Legal and Operations teams during client lease and SLA reviews to verify technical feasibility, power/cooling redundancy commitments, and security compliance.
- **Client Tours & Solution Presentations:** Lead facility walkthroughs and technical presentation sessions for prospective and existing hyperscale/enterprise clients, demonstrating facility differentiators and technical capabilities.
- **System Commissioning & Acceptance:** Direct final testing, commissioning, and Operational Acceptance (T&A) for complex physical infrastructure systems, edge-controllers, and AI-driven monitoring platforms.

MASTERCARD | Senior Analyst – Corporate Security Infrastructure & Engineering Pune, India • Dec 2017 – Jul 2021

- **Regional Technical Delivery:** Managed physical security and infrastructure upgrades for critical facilities, ensuring strict alignment with ISO 27001, SOC 2, and PCI DSS compliance baselines.
- **Engineering & Fitout Support:** Engineered edge-controller configurations and fiber networking paths to guarantee redundant logging and video recording during critical infrastructure events.
- **Vendor & Operations Alignment:** Led physical vulnerability audits, health checks, and preventative maintenance workflows alongside Service Operations, fitout teams, and third-party contractors.
- **Statutory & Stakeholder Liaison:** Interfaced with government bodies, municipal authorities, and internal stakeholders to ensure fast-track project approvals and regulatory adherence.

EARLIER SECURITY & SYSTEMS ENGINEERING EXPERIENCE

- **Target | Security Consultant (Jun 2017 – Dec 2017):** Performed infrastructure risk assessments, vulnerability audits, and technical designs for core corporate assets.
- **Wells Fargo | Technology Specialist (Feb 2015 – May 2017):** Executed enterprise access control expansions and integrated multi-site physical security hardware across critical sites.
- **Tyco | Project Engineer (Sep 2012 – Jan 2015):** Commissioned Perimeter Intrusion Detection Systems (PIDS) and integrated large-scale critical asset infrastructure.
- **Siemens | Project Engineer (Oct 2011 – Sep 2012):** Designed AutoCAD CCTV layouts, electrical schematic submittals, and system architecture diagrams for large-scale facility builds.

EDUCATION & PROFESSIONAL CERTIFICATIONS

- Bachelor of Technology (B.Tech) in Electronics & Communication — SSIT (2011)

- Oracle Cloud Infrastructure Data Center Operations Foundations Associate (2026)
- Oracle Cloud Infrastructure AI Foundations Associate (2025)
- Certified Systems Engineer: Lenel OnGuard & Genetec Security Center
- Professional Scrum Master I (PSM I) — Agile Execution Management

LANGUAGES & REGIONAL MOBILITY

Languages: English (Professional/Corporate), Marathi (Native), Hindi (Fluent), Telugu • Location Flexibility: Immediately available for relocation to Mumbai / Navi Mumbai or Pune for facility tours, client meetings, and operational delivery.
