PROFESSIONAL SUMMARY

Data Center & Enterprise Physical Security Subject Matter Expert with 14+ years of hands-on engineering and program delivery experience across APAC and EMEA. Proven track record managing physical security projects from early design and AutoCAD submittals to installation, testing, commissioning and operational turnover. Expert in aligning complex regional construction with baseline standards, vendor management, and enterprise security platforms (Lenel OnGuard, Genetec Security Center, S2). Experienced in supporting critical infrastructure, executing site walks, and managing customer-facing relationships with cross-functional stakeholders.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Data Center & Critical Infrastructure:** Physical Security Design, Site Turnover, Operational Acceptance, Commissioning, Audits, Punch List Verification, Test & Acceptance (T&A).
- **Physical Security Systems:** Access Control (ACS), Video Management Systems (VMS), Intrusion Detection Systems (IDS), Perimeter Intrusion Detection (PIDS), Intercoms, Edge Controllers.
- **Platforms & Tools:** Lenel OnGuard (Certified), Genetec Security Center (Certified), S2 Systems, AutoCAD, Visio, ServiceNow, Jira.
- **Project & Vendor Management:** Subcontractor Technical Oversight, SOW Compliance, Design Drawings Review, RFIs, Budgeting, Schedule Enforcement, Root Cause Analysis (RCA).
- **Standards & Compliance:** Alignment with CPP/PSP principles, ISO 27001, PCI DSS, SOC 2, Indian Jurisdictional & Construction Standards.

PROFESSIONAL EXPERIENCE

ORACLE | Technical Program Lead – Security Operations & Systems Engineering Bengaluru, India • Aug 2021 – Present

- Lead end-to-end physical security program execution for complex enterprise and critical sites, managing initial layout, system design reviews, construction oversight, and commissioning.
- Provide SME guidance on physical security standards, reviewing vendor design submittals, AutoCAD drawings, and scope of work (SOW) compliance across regional facility deployments.
- Validate installation and configuration quality through structured site walks, commissioning reviews, and contractor audits to enforce project schedules and defect closure.
- Perform system commissioning and final Test & Acceptance for Access Control (ACS), CCTV/VMS, and Intrusion Detection Systems across enterprise locations.
- Act as primary technical liaison for cross-functional partners (Global IT, Facilities, HR, Legal) and external integration partners to resolve design gaps and streamline project delivery.
- Evaluate emerging AI video analytics and edge technologies to improve threat detection and maximize security system uptime.

MASTERCARD | Senior Analyst – Corporate Security Infrastructure Pune, India • Dec 2017 – Jul 2021

- Managed regional physical security infrastructure builds and upgrades, maintaining strict compliance with ISO 27001, SOC 2, and PCI DSS baseline requirements.
- Engineered and validated local edge-controller configurations to guarantee redundant logging and video recording during critical infrastructure events.
- Oversee site vulnerability audits, physical security system health checks, and preventative maintenance workflows with third-party vendors and integrators.
- Recognition: Awarded Corporate 'Innovation Award' and 'Challenge Coin Award' for excellence in security infrastructure delivery.

EARLIER SECURITY & SYSTEMS ENGINEERING EXPERIENCE

- **Target | Security Consultant (Jun 2017 – Dec 2017):** Conducted physical risk assessments, vulnerability audits, and initial security system design for corporate assets.
- **Wells Fargo | Technology Specialist (Feb 2015 – May 2017):** Executed enterprise access control expansions and integrated multi-site physical security hardware.
- **Tyco | Project Engineer (Sep 2012 – Jan 2015):** Commissioned Perimeter Intrusion Detection Systems (PIDS) and integrated large-scale security systems.
- **Siemens | Project Engineer (Oct 2011 – Sep 2012):** Created AutoCAD CCTV layouts, ACS architecture diagrams, and submittal packages for large-scale facilities.

EDUCATION & PROFESSIONAL CERTIFICATIONS

- Bachelor of Technology (B.Tech) in Electronics & Communications — S.S.I.T (2011)

- Certified Systems Engineer: Lenel OnGuard & Genetec Security Center
- Professional Scrum Master I (PSM I) — Agile Project Execution
- Oracle Cloud Infrastructure AI Foundations Associate (2025)
- Oracle Data Center Operations Certified Foundations Associate (2026)
- In Progress / Aligned: Certified Protection Professional (CPP) / Physical Security Professional (PSP) framework

LANGUAGES & REGIONAL MOBILITY

Languages: English (Fluent / Professional), Hindi (Proficient), Marathi, Telugu • Travel Mobility: Fully flexible and equipped for up to 50% regional and global travel, including short notice travel for site walks, commissioning and turnover.
